

PINNACLE SL300

BRINGING YOU PEACE OF MIND

DIFFERENT BY DESIGN

The Pinnacle stair lift has an established reputation as an industry leader for its innovative design, solid performance and reliability. Its patented drive system serves as a cornerstone that makes this stair lift different from all others on the market.

- Clean Operation – Pinnacle technology means no grease or lubrication. Cleaner for you, your home, or even pets.
- Efficient motor with nylon polymer gear/worm drive provides as many as up to 60 cycles on batteries during a power outage.
- Symmetrical design provides industry's most compact folded width. The rail mounts 1" from the wall and is 3" tall helping to stay out of sight.

CLEAR WALKWAYS

Harmar's exclusive automatic and mechanical folding rail (optional) removes obstructions and trip hazards at the lower landing area. Its operation is automatic, the user does not need to stop or have someone else assist. And since it's mechanical, there are no additional switches or controls.

DESIGNED WITH YOU IN MIND

Ergonomic control switch helps those with arthritis or limited hand dexterity.

Seat belt for optimal safety

Seat swivel seat at upper landing for easy and save entry/exit away from staircase

Oversized footrest provides more comfort and security.

2x remote controls to call or send your stairlift

My Pinnacle gives me the confidence to go up and down my stairs safely. It operates smoothly and is very quiet. I feel comfortable in my own home and less dependent upon others. My children have peace of mind knowing I am safer with my Pinnacle.
