

NE-C801

# OMRON CompAir® Compressor Tabletop Nebulizer System

The CompAir Compressor Nebulizer System (NE-C801) is a small, lightweight and convenient tabletop nebulizer that features OMRON advanced design and engineering.

## Small, light tabletop nebulizer

weighing less than 9.5 oz. (3.5x lighter than most other compressor models)

## Advanced engineering

allows it to administer medication as effectively as tabletop models three times its size

## Fast, efficient operation

with a nebulization rate of 0.30mL/minute and particles as small as 3µm MMAD

## Quiet motor

runs at less than 52 dB, similar to the sound of an electric toothbrush\*

## Affordable and efficient alternative

for anyone with asthma, COPD or other respiratory conditions

## Medicine particles with an average size of 3 µm,

which have a greater probability to penetrate into the deep lung†
